DELIVERING TOGETHER

We are working on a road near you

Senna Lane, Comberbach

Carriageway Works

Wednesday 11th June 2025 & Wednesday 18th June 2025

(works are weather dependent)

0300 123 7036

@Go_CheshireWest

Dear Residents

We are writing to inform you we will be carrying out carriageway treatment works on Senna Lane from 70 Senna Lane to Senna Lane Farm.

When are the works taking place?

The works will commence on Wednesday 11th June 2025 and will be completed on Wednesday 18th June 2025, with day time closures between 08:00hrs & 17:00hrs. These closures have been planned to limit the impact on the local area.

Why are we doing this?

The works need to be carried out to extend the lifespan on the road surface.

What works will be carried out?

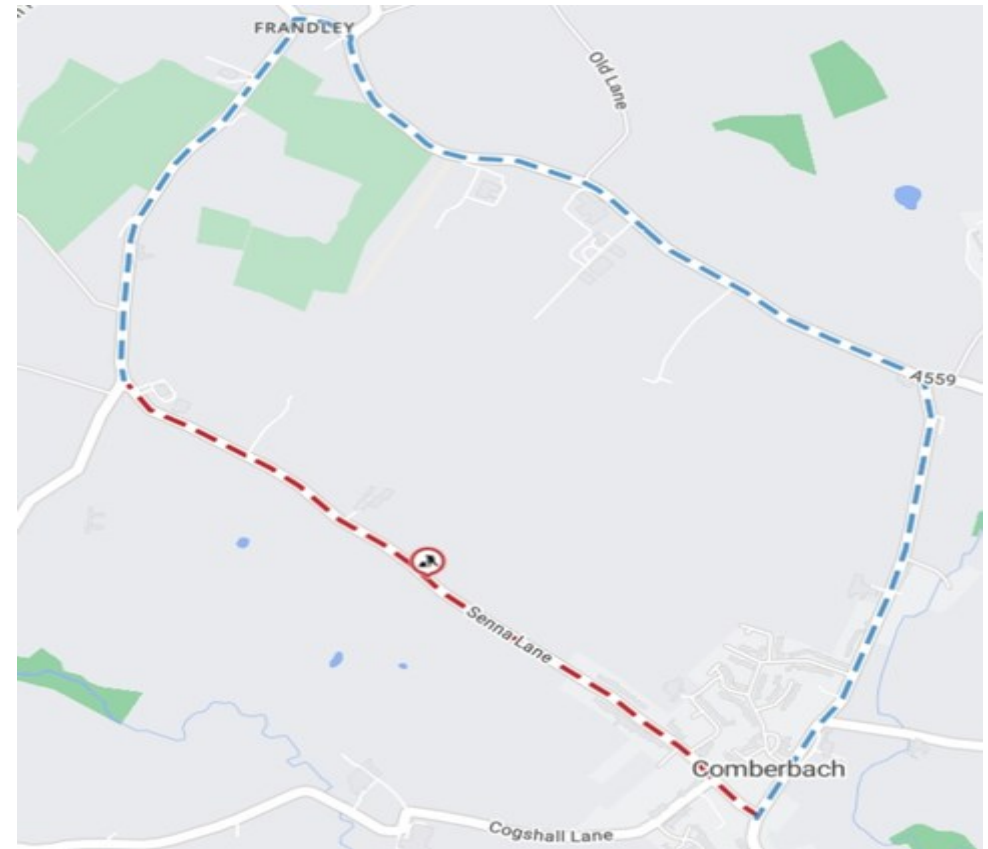

The initial works being carried out will be the patching of existing defects and repair of the ironworks to allow for the treatment works to be carried out.

How could the works impact me?

Once the works commence there will be road closures, these are necessary to ensure the safety of both the public and the workforce. Signed diversion routes will be place throughout but pedestrian access to properties will be maintained at all times when the full road closure is in place.

Wednesday 11th June 2025

A full road closure will be in operation during the hours of 08:00 until 17:00, for the application of the surface treatment.

Wednesday 18th June 2025

A full road closure will be in operation during the hours of 08:00 until 17:00, for the reinstatement of road markings.

Will the work be noisy & what precautions should I take during the works?

Some aspects of this work will be noisy, there will also be alarms from our vehicles when reversing which are mandatory for health and safety reasons. We will endeavour to keep all noise to a minimum and your patience on this matter is appreciated. Residents will not need to take any specific precautions as signed diversion routes will be in place. Access to properties & businesses will be maintained where possible but there may be a short delay to make sure the working area is safe to enter.
