

Comberbach Parish Council - Infant Play Area

Proposed New Infant Play Unit update, 1st Sept 25

Further to the flyer distributed to all residential houses in the village in July, the Parish Council has been successful in launching the project on the Spacehive.com website for crowdfunding.

The project site is now live for anyone to donate money towards the cost of the new play unit and will also be the place to see any grant money awarded.

The website <https://www.spacehive.com/comberbachinfantplay> summarises the project, and is now where to pledge any money, taking over from the email address published in July's flyer.

It is suggested by Spacehive that projects with an early momentum of pledges made in the first few weeks are more likely to succeed in achieving target, and the local support will help convince grant funders of its worth.

The Parish Council asks you to consider making a donation, and if there is more than one adult living at the same address, that the pledge/donation is split by making individual donations.

If you would like to contribute, please make your pledge/donation at <https://www.spacehive.com/comberbachinfantplay/pledge>.

Thank you for your support
